SUMMARY

B.Tech Information Technology student at CUSAT focused on React, Next.js, frontend and full-stack web development. Experienced in building deployed web apps, admin dashboards, CRUD features, Supabase authentication, database and storage integrations, LocalStorage persistence, PWA features, data organization, and technical documentation.

EDUCATION

Cochin University of Science and Technology (CUSAT) | B.Tech Information Technology

Expected Graduation: 2028

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Web Development, Programming Fundamentals

EXPERIENCE

Digital Twin Internship

2026 - Present

- Contributing to governance and industrial digital twin projects through data collection, hierarchy mapping, system modeling, and research preparation.
- Organized structured datasets and diagrams for digital twin applications.

MATLAB & Simulink Training Program | MathWorks Academy

June 2025

- Completed 30 hours in MATLAB programming, Simulink modeling, data analysis, visualization, optimization, and machine/deep learning fundamentals.

PROJECTS

StudySync - Student Planner PWA | React, TypeScript, Vite, Tailwind CSS, React Router, LocalStorage, PWA

- Built and deployed a frontend-only student planner to manage subjects, attendance, assignments, exams, calendar planning, productivity tools, Pomodoro timer, goals, reminders, and backups.
- Implemented LocalStorage persistence, export/import backup, reset data, dark mode, browser notifications, and installable PWA support.

Zayna Dresses - Full-Stack Boutique E-Commerce Website | React, Vite, Supabase, Supabase Auth, Supabase Storage, Vercel

- Built and deployed a boutique e-commerce platform with authentication, product browsing, wishlist, cart, checkout, reviews, order history, and WhatsApp order confirmation.
- Developed a protected admin dashboard to manage products, images, stock, orders, delivery status, and store statistics; implemented stock-aware checkout logic using Supabase tables and RPC functions.

Live: store-website-beige.vercel.app | GitHub: github.com/shabana044/store_website

Yarn & Hook Studio - Full-Stack Crochet Business Website | Next.js, TypeScript, Tailwind CSS, Supabase, Vercel

- Built and deployed a handmade crochet business website with product browsing, customer authentication, order requests, address collection, payment preference, and order tracking.
- Developed an admin dashboard to add products, upload images, hide/show/delete products, manage customer orders, update order/payment status, set final price, advance amount, estimated time, and verify payment references.

Live: yarn-and-hook.vercel.app | GitHub: github.com/shabana044/yarn-and-hook

Cinema Ticket Booking System | PostgreSQL, Supabase

- Designed database structures for users, movies, bookings, and seat allocation in a cinema ticket booking system.

Career Guidance Platform (HackEuropa - Team CheckMate) | Web Development, Firebase

- Built a student career guidance platform with exploration and resume-related support.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, TypeScript, HTML, CSS

Frontend: React.js, Next.js, React Router, Vite, Tailwind CSS, Responsive Web Design, PWA

Backend & Databases: Node.js, MongoDB, PostgreSQL, Supabase

Tools: Git, GitHub, Vercel, VS Code, Supabase Auth, Supabase Storage

Other: LocalStorage, MATLAB, Simulink, Data Analysis, Technical Documentation, Research & Information Organization, Problem Solving

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Computational Thinking and Basics of Artificial Intelligence using MATLAB and Simulink (30 Hours).
- Full Stack Open (Completed Parts 0-4); MATLAB Onramp Modules; Simulink Learning Modules.
- Participant, HackEuropa Hackathon (Team CheckMate); attended Virtual Reality Workshop.

LANGUAGES

English, Malayalam
